

D. IN THE ABSTRACT DRAWING

The original application covered more than one invention. Actually, it covered at least two major groups of inventions. I was requested to “divide and elect”. I did.

Originally, I had suggested to use Fig. 72 for the Abstract Drawing, which is a duplicate of Fig. 5.

However, based on the present elected group of inventions, I feel that Fig. 72 does **not** represent this present group anymore. I feel that **Fig. 43 would be a better representation for the elected group.**

Accordingly, I would like to suggest that **Figure 43 be used in conjunction with the Abstract.**
